EXTENDED EDUCATION AT WESTERN

ACADEMIC YEAR 2016-2017

PREPARED FOR THE FACULTY SENATE OF WESTERN WASHINGTON UNIVERSITY

EXTENDED EDUCATION: HISTORY, MISSION, AND VISION

Extended Education (EE) supports and delivers Western programs to students and community members within and beyond the borders of Bellingham campus.

EE connects diverse learners to the Western Experience by collaborating with colleges, departments and the community, linking university resources with educational needs and opportunities both on and off campus, including international education opportunities. EE reaches out to the public with academic workshops and summer programs for Youth, non-credit enrichment courses for lifelong learners, and professional development for those seeking career advancement. In addition, EE facilitates conferences for groups and organizations, both on and off campus.

EE at Western had its beginnings in 1912 when the first home study courses were created for teachers. Fast forward to the 21st century where EE has expanded and diversified WWU offerings in Bellingham and throughout the Puget Sound region, emphasizing community college partnerships in Seattle, Everett, Port Angeles, Mount Vernon, Bremerton, and Poulsbo to deliver degree and learning options for all ages.

EE supports undergraduate, graduate, certificate/endorsement, and online programs. Individual distance learning courses are offered via Term-Based online and Self-Paced independent learning online for degree completion and professional development purposes. EE also facilitates Western's Summer Session.

MISSION OF EXTENDED EDUCATION

Extended Education connects learners of all ages to the Western Experience. Extended Education collaborates with colleges, departments, and the community, linking university resources with educational needs and opportunities both on and off campus.

VISION STATEMENT

Extended Education will share the Western Experience with students of all ages through learning opportunities across time and place by expanding partnerships – campus and beyond – to build a stronger Washington.

STATEMENT OF QUALITY

Extended Education is committed to the same high standards of quality for which Western is well known. Programs and courses are designed and/or revised with the assistance of university faculty, aided by industry and community experts and are reviewed and approved by Western Washington University colleges, departments, and academic committees.

DISTRIBUTION OF STUDENT ENROLLMENT IN STATE-SUPPORTED AND ONLINE: TERM-BASED (NON-COHORT) CREDITS FOR ACADEMIC YEAR 2016-17

The table below illustrates student enrollment in state supported and self-sustaining online: term-based offerings. The column on the left (blue) indicates the number of state supported credits. The row on the top (green) indicates the number of online: term-based credits. Each count represents one student enrollment in a particular term (data covered include enrollments from fall, winter, and spring quarters) and conveys how many credits of state supported and online: term-based that student enrolled in for the quarter.

The gold band highlights a total number of credits that would be covered by the 10-18 banded tuition used for billing for state-supported credits.
